

3 Circle all the trapeziums below.

**Classwork**

Look at the 2-D shapes below. Put a ✓ in the  if it is a trapezium. Put a x if it is not.

**Go further**

Draw 2 straight lines on each piece of paper below so that each of them forms 4 trapeziums.

(The answers are for reference only. Accept any reasonable answers.)

**Maths alive**

We can find rhombuses and trapeziums in our daily lives.

**Exercise 6**

Show / Hide All Answers

Write the letters for the answers.

1 Rhombus(es): A, B    2 Trapezium(s): C, D

Look at the picture on the right and fill in the blanks.

3 There are 4 rhombuses.  
4 There are 3 trapeziums.

Put a ✓ in the  if it is correct. Then write the names of the 2-D shapes.

	4 equal sides	4 right angles	Name
5	✓	✓	square
6	✓		rhombus
