Notice No. 16
Arrival of the Winter Influenza Season in Hong Kong
Additional Measure on Temperature Monitoring

According to the Centre for Health Protection (CHP), the local seasonal influenza activity has continued to increase in the past few weeks and exceeded the baseline level, indicating that Hong Kong has entered the winter influenza season.

Parents are requested to **check the temperature of the child before sending him/her to School**. To prevent outbreak of influenza and other respiratory infections, it is of prime importance that students with fever, regardless of the presence of respiratory symptom, should take leave from School. These students should seek medical advice promptly and avoid School till 48 hours after the fever has subsided.

Meanwhile, parents are also advised to avoid visiting crowded or poorly-ventilated public places with their children as far as possible.

通告第十六號
香港進入冬季流感季節
量度體溫的額外措施

據衛生防護中心表示，本港季節性流感活躍程度在上週繼續上升，並超越基線水平，顯示香港已踏入冬季流感季節。

子女每天上學前，家長必須為其量度體溫。為防止流感或其他呼吸道傳染病的爆發，子女如出現發熱，不論是否有呼吸道感染病徵，應立刻求診，並不應回校上課，直至退燒後最少四十八小時。

此外，如非必要，家長應避免帶子女到人多擠迫而空氣欠流通的公眾地方。
