The 80th Anniversary Celebratory Event
Sharing by Mr Thomas Chan & Ms Teresa Lee

“Happy Parents, Happy Kids – Nurturing Oxford Children”

Mr Thomas Chan and Ms Teresa Lee have three children who all graduated from the University of Oxford with Bachelor's or Master's degree. The second son made them proud by graduating as Top First. He continued his study of the Master's degree in the University of Cambridge with scholarship. Now all of them are in the Finance world.

All parents want their children to have a bright future. Compared to parents who try to equip their children with as many skills as possible, Mr and Mrs Chan paid more attention on cultivating the 'motivation and initiative' of their children. As happy parents, they gave their children plenty of freedom. Their happy tricks motivated their children to learn by themselves and brought cohesion to the family. In addition, the children learned to respect each other as well as the parents. Mr and Mrs Chan have been sharing their ideas on parenting by publishing books and writing columns.

Mr and Mrs Chan will share with us how to get along with children utilizing the limited time, today's hectic lifestyles permit. They will also throw light on how to educate them with proper attitude and life views and motivate their interests in learning and sense of belonging in the family. The details of the session are as follows:

- Time: 10:30 am – 12:30 pm
