### **Field Trip to Beaches in Stanley**

The purpose of the science education programme is to give students the opportunity to develop and use their scientific knowledge.

In order to further your child's understanding and appreciation of the topic, we have organised a field trip to the various beaches in Stanley. Your child will be participating in a beach clean up to promote sustainable living and to highlight the impact of plastic on their lives. This mandatory field trip will take place during their English lessons in the morning, and students will return before first recess. Please see below for the trip dates and times for each class:
